use of more efficient and environmentally-friendly refrigerant

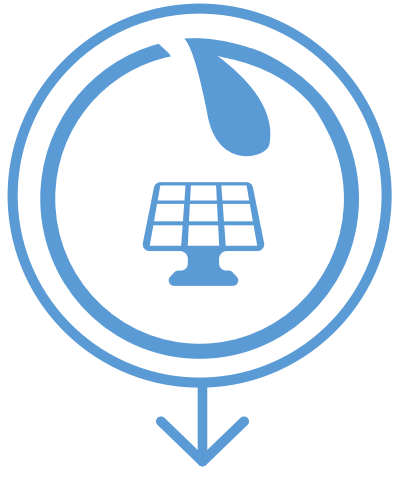
Freon R 404 a

Rainwater

Rainwater harvesting and defrost condensation collection systems

Continuous training & development on ways to reduce energy consumption

Power



Solar

High-efficiency lighting, solar panel roofing and charging stations for materials handling equipment

STRICTLY PRIVATE AND CONFIDENTIAL

ESG Initiatives

- *The role of businesses is undergoing a radical shift. Today, people across society - from customers and investors to local communities and NGOs – expect businesses to fundamentally do good, rather than only making a profit. At Coldman our experience is that doing good business and solving environmental and social challenges go hand in hand.*
- *At Coldman we have taken an initiative to become a "Net Zero" by installation of Solar System Plants in our Cold Chain facilities.*
